INDEX TO VOLUME 63A

July—December 1959

A

Page

Acids and bases, precise coulometric titration ... 153
Allen, H. C., Jr., E. K. Plyler, Some vibrational-rotational bands of deuterated methanes ... 145
Analysis, in films, of tritium-labeled compounds ... 171
Analysis of the first spectrum of ruthenium (Ru I) ... 213
Asphalts, infrared spectra ... 189

B

Bases and acids, precise coulometric titration ... 153
Beitchman, B. D., Infrared spectra of asphalts ... 189
Benzenes, pentafluorohalo-, reactions ... 167
Berger, M. J., J. W. Cooper, Reflection of fast neutrons from water ... 101
Bradt, P., L. A. Wall, S. Straus, R. E. Florin, F. L. Mohler, Phosphinoborine compounds: mass spectra and pyrolysis ... 63
Brenner, A., D. E. Couch, Preparation of trichloride and tetrachloride of molybdenum ... 185
Broida, H. P., C. E. Moore, CH in the solar spectrum ... 19
—, —, OH in the solar spectrum ... 279
Bulk crystallization in poly(chlorotrifluoroethylene), experimental and theoretical study of kinetics ... 67
Bunting, E. N., C. E. Weir, E. R. Lippincott, A. Van Valkenburg, Infrared studies in the 1- to 15-micron region to 30,000 atmospheres ... 55

C

Carbohydrates, general-purpose apparatus for preparation of tritium-labeled ... 177
Carbohydrates, tritium labeled, assay ... 171
Carpenter, F. G., C. J. Rieger, Light scattering by commercial sugar solutions ... 205
CH in the solar spectrum ... 19
Chebychev polynomials in thin film computations, use ... 297
Commercial sugar solutions, light scattering ... 205
Computations, thin film, Chebychev polynomials in use ... 297
Cooper, J. W., M. J. Berger, Reflection of fast neutrons from water ... 101
Corliss, C. H., C. C. Kiess, Description and analysis of the first spectrum of iodine ... 1
Couch, D. E., A. Brenner, Preparation of trichloride and tetrachloride of molybdenum ... 185
Coulometric titration of acids and bases ... 153

D

Degradation of polymers at high temperatures, thermal ... 261
Description and analysis of the first spectrum of iodine ... 1
Dibeler, V. H., M. Krauss, R. M. Reese, Multiple ionization of rare gases by electron impact ... 201

E

Electron impact, multiple ionization of rare gases ... 201
Experimental and theoretical study of kinetics of bulk crystallization in poly(chlorotrifluoroethylene) ... 67

F

Florin, R. E., L. A. Wall, S. Straus, F. L. Mohler, P. Bradt, Phosphinoborine compounds: mass spectra and pyrolysis ... 63
Frush, H. L., H. S. Isbell, R. A. Peterson, Tritium-labeled compounds I. Radioassay of tritium-labeled compounds in "infinitely thick" films with a windowless, gas-flow, proportional counter ... 171

G

Gilliland, A. A., W. H. Johnson, E. J. Prosen, Heat of formation of titanium tetraiodide ... 161

H

Heat of formation of titanium tetraiodide ... 161
Hoffman, J. D., J. J. Weeks, W. M. Murphey, Experimental and theoretical study of kinetics of bulk crystallization in poly(chlorotrifluoroethylene) ... 67

I

Influence of impurities on the pyrolysis of polyamides ... 269
Infrared spectra of asphalts ... 189
Infrared studies in the 1- to 15-micron region to 30,000 atmospheres ... 55
Iodide, titanium tetra-, heat of formation ... 161
Iodine, analysis of first spectrum ... 1
Ionization of rare gases by electron impact, multiple ... 201

Page

Isbell, H. S., H. L. Frush, R. A. Peterson, Tritium-labeled compounds I. Radioassay of tritium-labeled compounds in "infinitely thick" films with a windowless, gas-flow, proportional counter ... 171
—, *J. D. Moyer*, Tritium-labeled compounds II. General-purpose apparatus, and procedures for the preparation, analysis, and use of tritium oxide and tritium-labeled lithium borohydride ... 177

J

Johnson, W. H., A. A. Gilliland, E. J. Prosen, Heat of formation of titanium tetraiodide ... 161

K

Kessler, K. G., Analysis of the first spectrum of ruthenium (Ru I) ... 213
—, *J. R. McNally, Jr.*, Supplementary Zeeman data for the first spectrum of ruthenium (Ru I) ... 253
Kiess, C. C., C. H. Corliss, Description and analysis of the first spectrum of iodine ... 1
Krauss, M., R. M. Reese, V. H. Dibeler, Multiple ionization of rare gases by electron impact ... 201

L

Light scattering by commercial sugar solutions ... 205
Lippincott, E. R., C. E. Weir, A. Van Valkenburg, E. N. Bunting, Infrared studies in the 1- to 15-micron region to 30,000 atmospheres ... 55
Lithium borohydride, tritium-labeled, preparation and use ... 177
Low even configurations in the first spectrum of ruthenium (Ru I), part 2 ... 255

M

Madorsky, S. L., S. Straus, Thermal degradation of polymers at high temperatures ... 261
Mass spectra and pyrolysis: phosphinoborine compounds ... 63
McNally, J. R., Jr., K. G. Kessler, Supplementary Zeeman data for the first spectrum of ruthenium (Ru I) ... 253
Methanes, deuterated, some vibrational-rotational bands ... 145
Mielenz, K. D., Use of Chebychev polynomials in thin film computations ... 297
Mohler, F. L., L. A. Wall, S. Straus, R. E. Florin, P. Bradt, Phosphinoborine compounds: mass spectra and pyrolysis ... 63
Molybdenum, preparation of trichloride and tetrachloride ... 185
Moore, C. E., H. P. Broida, CH in the solar spectrum ... 19
—, —, OH in the solar spectrum ... 279
Moyer, J. D., H. S. Isbell, Tritium-labeled compounds II. General-purpose apparatus, and procedures for the preparation, analysis, and use of tritium oxide and tritium-labeled borohydride ... 177
Multiple ionization of rare gases by electron impact ... 201
Murphey, W. M., J. D. Hoffman, J. J. Weeks, Experimental and theoretical study of kinetics of bulk crystallization in poly(chlorotrifluoroethylene) ... 67

N

Neutrons, fast, reflection from water ... 101

O

OH in the solar spectrum ... 279

P

Pentafluorohalobenzenes, reactions ... 167
Peterson, R. A., H. S. Isbell, H. L. Frush, Tritium-labeled compounds I. Radioassay of tritium-labeled compounds in "infinitely thick" films with a windowless, gas-flow, proportional counter ... 171
Phosphinoborine compounds: mass spectra and pyrolysis ... 63
Plyler, E. K., H. C. Allen, Jr., Some vibrational-rotational bands of deuterated methanes ... 145
Polyamides, influence of impurities on the pyrolysis ... 269
Polymers at high temperatures, thermal degradation ... 261
Polynomials, Chebychev, in thin film computations ... 297
Precise coulometric titration of acids and bases ... 153
Preliminary list of levels and g-values for the first spectrum of thorium (Th I) ... 275
Preparation of trichloride and tetrachloride of molybdenum ... 185
Prosen, E. J., W. H. Johnson, A. A. Gilliland, Heat of formation of titanium tetraiodide ... 161
Pummer, W. J., L. A. Wall, Reactions of pentafluorohalobenzenes ... 167
Pyrolysis of polyamides, influence of impurities ... 269

R

Radioactivity assay, of tritium compounds ... 177

Page

Radioassay of tritium-labeled compounds in "infinitely thick" films with a windowless, gas-flow, proportional counter, tritium-labeled compounds I... 171
Reese, R. M., M. Krauss, V. H. Dibeler, Multiple ionization of rare gases by electron impact... 201
Reflection of fast neutrons from water... 101
Rieger, C. J., F. G. Carpenter, Light scattering by commercial sugar solutions... 205
Ruthenium (Ru I), analysis of the first spectrum... 213
Ruthenium (Ru I), low even configurations in the first spectrum, part 2... 255
Ruthenium (Ru I), supplementary Zeeman data for the first spectrum... 253

S

Smith, S. W., J. K. Taylor, Precise coulometric titration of acids and bases... 153
Solar spectrum, CH... 19
Solar spectrum, OH... 279
Spectra, infrared, of asphalts... 189
Spectrum, first, of iodine, description and analysis... 1
Spectrum, solar, CH... 19
Spectrum, solar, OH... 279
Straus, S., S. L. Madorsky, Thermal degradation of polymers at high temperatures... 261
—, *L. A. Wall,* Influence of impurities on the pyrolysis of polyamides... 269
—, —, *R. E. Florin, F. L. Mohler, P. Bradt,* Phosphinoborine compounds: mass spectra and pyrolysis... 63
Sugar solutions, commercial, light scattering... 205
Supplementary Zeeman data for the first spectrum of ruthenium (Ru I)... 253

T

Taylor, J. K., S. W. Smith, Precise coulometric titration of acids and bases... 153
Tetrachloride and trichloride of molybdenum, preparation... 185
Tetraiodide, titanium, heat of formation... 161
Thermal degradation of polymers at high temperatures... 261
Thorium (Th I), a preliminary list of levels and g-values for the first spectrum... 275
Titanium tetraiodide, heat of formation... 161
Titration, precise coulometric, of acids and bases... 153
Trees, R. E., Low even configurations in the first spectrum of ruthenium (Ru I), part 2... 255

Page

Trichloride and tetrachloride of molybdenum, preparation... 185
Tritium-labeled compounds I. Radioassay of tritium-labeled compounds in "infinitely thick" films with a windowless, gas-flow, proportional counter... 171
Tritium-labeled compounds II. General-purpose apparatus, and procedures for the preparation, analysis, and use of tritium oxide and tritium-lithium borohydride... 177
Tritium oxide and tritium-labeled lithium borohydride, general-purpose apparatus for preparation, analysis and use... 177

U

Use of Chebychev polynomials in thin film computations... 297

V

g-Values for the first spectrum of thorium (Th I), a preliminary list of levels... 275
Van Valkenburg, A., C. E. Weir, E. R. Lippincott, E. N. Bunting, Infrared studies in the 1- to 15-micron region to 30,000 atmospheres... 55
Vibrational-rotational bands of deuterated methanes... 145

W

Wall, L. A., W. J. Pummer, Reactions of pentafluorohalobenzenes... 167
—, *S. Straus,* Influence of impurities on the pyrolysis of polyamides... 269
—, —, *R. E. Florin, F. L. Mohler, P. Bradt,* Phosphinoborine compounds mass spectra and pyrolysis... 63
Weeks, J. J., J. D. Hoffman, W. M. Murphey, Experimental and theoretical study of kinetics of bulk crystallization in poly(chlorotrifluoroethylene)... 67
Weir, C. E., E. R. Lippincott, A. Van Valkenburg, E. N. Bunting, Infrared studies in the 1- to 15-micron region to 30,000 atmospheres... 55

Z

Zalubas, R., A preliminary list of levels and g-values for the first spectrum of thorium (Th I)... 275
Zeeman data, supplementary, for the first spectrum of ruthenium (Ru I)... 253
